c/o: Petition for reviving the abandoned patent application (No: 09/643,128)

Sept. 12, 2002

Dear Commissioner,

As one of the inventors of the US Patent Application (No: 09/643,128), I am writing to appeal to revive the patent application. Here is the whole story for the application process.

The patent was originally prepared and filed by patent attorney Rahul Pathak at Pennie & Edmonds (Palo Alto, CA) on behalf of our company. They filed the application on Dec. 15, 2000 with the reference number of 10583-0005-999. However, after filing, Pennie & Edmonds had their internal agreement that they will not work on any cases in which Stanford University was the assignee. Because GMR Epigenetics and Stanford University were the jointed assignees for the application, Pennie & Edmonds decided to discontinue the case for us. Because we lacked funds to have a new patent attorney to take care of the case, we simply asked them to retransmit all documents to Dr. Neil Dey at GMR Epigenetics.

However, for some reasons, Pennie & Edmonds had not appropriately transferred the Power of Attorney to us as we assumed it had been. As a result of this miscommunication, we have not received any response and requests from USPTO office. Meanwhile, Pennie & Edmonds did not transfer us any documents they received from your office. We just patiently wait and wait until this morning I began to learn that our patent was abandoned just last month. In addition, we have moved from our original Mountain View office to Sunnyvale after filing the patent. It may account for the failure in receiving the mails and response.

Considering this special case, we would appreciate your help with reviving the patent application.

1). Please change correspondence address and power of attorney from our original patent attorney Pennie & Edmonds to our company:
